

## Ensuring A Safe Environment To Our Community During Covid-19

*The Circa Restaurant Group is committed to keeping our staff and guests safe. The health of our community, along with doing our part to stop the spread of Covid-19 is of the utmost importance. We are taking all the necessary steps to ensure this:*

- All Restaurants are running at 50% capacity.
- Management is conducting daily health evaluation for all staff, including temperature checks.
- We are disinfecting all tables, counter tops, menus and other surfaces after each guest's visit.
- All tables and bar seats are spaced 6 feet apart. We have also added partitions in between all booths.
- All employees are equipped with masks. All staff members in the kitchen are also wearing gloves while preparing and handling food.
- Hand sanitizer is abundant throughout the restaurant and available to all guests and staff.
- We will continue to follow all CDC and government recommendations as they are provided to us.
